1) *Contra* has a signature of one flat in its first staff (bb. 1-12.1) only. This signature has been retained for the whole piece, and the single *b* following the imitation bars 9-12 (in b. 14.1) has been treated as if it had a notated natural sign.

2) *Superius*, text 3, bar 2, the word "j'ay" is missing (error).

3) All parts, bar 9, the end of "je m'esbahis" has been extended by a *semibrevis* value (not in Nivelle), probably to repair a corruption of the musical text. In performance it would be best to ignore the extention by omitting the first *semibrevis* rest in the superius (b. 9.1) and the dots on the *breves* in the tenor and contra (T b. 9 and C b. 8).

Wolfenbüttel no. 46, p. 2

1) *Contra*, bar 36.2, the *c* could be read as a *B*.
